FACTORIES FOR DOG FEED.

One of the two factories in this counry for the making of patent food and patent medicine for dogs has been described in the New York News. The On the ground floor the visitor enters the receiving room of the raw materials. Thousands of pounds of butchers' scraps are brought here in the course of a month. Oatmeal in wholesale quantities and tons of herbs are used. The old-fashioned dog's bane, boneset, catnip and beef-root, under various scientific names, find a use as food or as medicine. The second floor is occupied by four curious machines, with great cylinder attachments. Af-
